Document Overview

Section 1: Stormwater Management Program.....	DO-1
Section 2: Sediment Control Program.....	DO-2
Section 3: County Road/Property Maintenance and Recycling Activities	DO-3
Section 4: NPDES Education Program.....	DO-4
Section 5: Illicit Connections Program.....	DO-5
Section 7: Watershed Planning and Restoration.....	DO-7
Section 8: Discharge Characterization and Assessment of Controls.....	DO-8
Section 9: Watershed and Restoration Monitoring.....	DO-9
Section 10: BMP Pollutant Load Reductions.....	DO-10
Section 11: Permit Administration, Legal Authority, and Fiscal Analysis.....	DO-11

Section 1: Stormwater Management Program

1.0 Permit Requirements.....	1-1
1.1 Introduction.....	1-2
1.2 Plan, and Variance and Fee-in-lieu Reviews.....	1-2
1.2.1 Plan Reviews.....	1-2
1.2.2 Variance and Fee-in-lieu Reviews.....	1-2
1.3 Approved Stormwater Management Facility Analysis.....	1-3
1.4 Inspections.....	1-7
1.5 Stormwater Management Facility Maintenance.....	1-8
1.6 Constructed Stormwater Management Facility Data Analysis.....	1-9
1.7 Summary.....	1-16

Section 2: Sediment Control Program

2.0 Permit Requirements.....	2-1
2.1 Introduction.....	2-1
2.2 Program Analysis—Plans Review.....	2-1
2.3 Program Analysis—Inspection and Enforcement.....	2-2
2.3.1 Grading and Building Permits Issued.....	2-2
2.3.2 Inspections, Complaints and Enforcement.....	2-5
2.4 Program Analysis—Training Program.....	2-7
2.5 Summary.....	2-7

Section 3: Road Maintenance and Recycling Activities

3.0 Permit Requirements.....	3-1
3.1 Introduction.....	3-1
3.2 County Property Management.....	3-1
3.3 Vac-Con Storm Drain Cleaning Program.....	3-2
3.3.1 Vac-Con Overview.....	3-2
3.3.2 Vac-Con Data Analysis.....	3-2
3.3.3 Vac-Con Data by Watershed.....	3-6
3.3.4 Program Summary – Vac-Con.....	3-8

3.4	Street Sweeping.....	3-8
3.4.1	Street Sweeping Overview.....	3-8
3.4.2	Street Sweeping by Watershed.....	3-9
3.4.3	Program Summary – Street Sweeping.....	3-11
3.5	Household Hazardous Waste (HHW).....	3-11
3.5.1	Recycling Program Summary.....	3-14
3.6	Fertilizer, Pesticide, and Deicing Statistics.....	3-14
Section 4: NPDES Education Program		
4.0	Permit Requirements.....	4-1
4.1	Introduction.....	4-1
4.2	Program Description.....	4-4
4.2.1	Baltimore County DEPRM’s Environmental Education Program	4-4
4.2.1.1	School Initiatives.....	4-4
4.2.1.2	Outreach to Homeowners, Citizen Groups, Businesses, and Landscape Managers.....	4-15
4.2.2	The Adopt-a-Pond and Secchi Disk Monitoring Program.....	4-36
4.2.3	The Stream Watch Program.....	4-36
4.2.4	Watershed Association Restoration Planning and Implementation Grant Program.....	4-37
4.2.5	Baltimore Watershed Agreement	4-37
4.2.6	Tree-Mendous Maryland Program in Baltimore County.....	4-37
4.2.7	The Baltimore County Forest Conservatory District Board.....	4-39
4.2.8	The Baltimore County Growing Home Campaign.....	4-40
4.2.9	Additional Educational Efforts.....	4-42
4.3	Summary.....	4-43
Section 5: Illicit Connections Program		
5.0	Permit Requirements.....	5-1
5.1	Introduction.....	5-1
5.2	Program Status.....	5-2
5.3	Analysis of Outfall Screenings.....	5-2
5.4	Illicit Connections Investigations and Corrections.....	5-7
5.5	Regional Illicit Connections Investigations and Complaint Database.....	5-12
5.6	Summary.....	5-13
Section 6: Geographic Information and Databases		
Not available for this report.		

Section 7: Watershed Planning and Restoration		
7.0	Permit Requirements.....	7-1
7.1	Introduction.....	7-2
7.2	Status of Watershed Management Plans.....	7-3
7.2.1	Water Quality Management Plans.....	7-3
7.2.2	Small Watershed Action Plans (SWAPs).....	7-4
7.3	Upper Western Shore Watersheds.....	7-5
7.3.1	Deer Creek.....	7-5
7.3.2	Prettyboy Reservoir.....	7-5
7.3.3	Loch Raven Reservoir Watershed.....	7-7
7.3.4	Lower Gunpowder Falls Watershed.....	7-9
7.3.5	Little Gunpowder Falls Watershed.....	7-10
7.3.6	Bird River Watershed.....	7-11
7.3.7	Gunpowder River Watershed.....	7-12
7.3.8	Middle River Watershed.....	7-13
7.4	Patapsco/Back River Watersheds.....	7-14
7.4.1	Liberty Reservoir Watershed.....	7-14
7.4.2	Patapsco River Watershed.....	7-15
7.4.3	Gwynns Falls Watershed.....	7-16
7.4.4	Jones Falls Watershed.....	7-17
7.4.5	Back River Watershed.....	7-19
7.4.6	Baltimore Harbor Watershed.....	7-21
7.5	Pollution Reduction Tracking Database.....	7-23
7.6	Impervious Surface Calculation.....	7-23
Section 8: Discharge Characterization and Assessment of Controls		
8.0	Permit.....	8-1
8.1	Introduction.....	8-3
8.2	Scotts Level Branch Long-Term Monitoring.....	8-3
8.2.1	Monitoring Design.....	8-5
8.2.1.1	Flow Monitoring.....	8-5
8.2.1.2	Chemical Monitoring.....	8-5
8.2.1.3	Geomorphological Monitoring.....	8-7
8.2.1.4	Biological Monitoring.....	8-9

8.3	Scotts Level Branch Long-Term Site Monitoring Results.....	8-9
8.3.1	Flow Monitoring.....	8-9
8.3.2	Chemical Monitoring.....	8-12
8.3.2.1	Storm Event Monitoring Results.....	8-12
8.3.2.2	Baseflow Monitoring Results.....	8-18
8.3.2.3	Pollutant Load Calculations.....	8-19
8.3.3	Geomorphological Monitoring.....	8-21
8.3.4	Biological Monitoring Results.....	8-26
8.4	Windlass Run Monitoring – Stormwater Management Assessment.....	8-27
8.4.1	Stream Geomorphological Monitoring.....	8-28
8.4.2	Biological Monitoring.....	8-32
<hr/>		
Section 9: Watershed and Restoration Monitoring		
9.0	Permit Requirements.....	9-1
9.1	Introduction.....	9-1
9.2	Chemical Monitoring Program.....	9-2
9.2.1	Baseflow Monitoring.....	9-2
9.2.2	Tidal Waters Monitoring Program.....	9-11
9.3	Stream Geomorphological Monitoring.....	9-16
9.3.1	Stream Restoration Project Monitoring.....	9-16
9.3.2	Stream Stability Assessments.....	9-17
9.3.3	Geomorphological Monitoring Summary.....	9-17
9.4	Biological Monitoring.....	9-18
9.4.1	Probabilistic Monitoring.....	9-18
9.4.2	Capital Improvements Projects Monitoring.....	9-26
9.4.3	Reference Site Monitoring.....	9-29
9.4.4	Submerged Aquatic Vegetation Monitoring Program.....	9-30
Section 10: BMP Pollutant Load Reductions		
10.0	Permit Requirements.....	10-1
10.1	Introduction.....	10-1
10.2	Summary of Pollutant Reduction Programs.....	10-2
Section 11: Permit Administration, Legal Authority, and Fiscal Analysis		
11.0	Permit Requirements.....	11-1
11.1	Permit Administration.....	11-1
11.2	Legal Authority.....	11-3
11.3	Fiscal Analysis.....	11-3
<hr/>		

List of Tables

1-1	Fee-in-lieu money received in 2006.....	1-3
1-2	Approved Stormwater Management Facilities by Watershed Through 2006.....	1-4
1-3	SWM Inspections 2006	1-8
1-4	Stormwater Facility Maintenance Visits by Type.....	1-8
1-5	SWM Pond Maintenance Activities (January 1, 2006 through December 31, 2006).....	1-9
1-6	Mean Load/Acre/Year by Land Use.....	1-10
1-7	Constructed SWM Facility Land Use (Acres) by Watershed.....	1-11
1-8	Pollutant Loads to Constructed SWM Facilities by Watershed.....	1-11
1-9	Percent Removal Efficiency of BMPs.....	1-12
1-10	Total Suspended Solids Removal by SWM Facility Type and Watershed...	1-13
1-11	Total Phosphorus Removal by SWM Facility Type and Watershed.....	1-13
1-12	Total Nitrogen Removal by SWM Facility Type and Watershed.....	1-14
1-13	Total Lead Removal by SWM Facility Type and Watershed.....	1-14
1-14	Total Zinc Removal SWM Facility Type and Watershed.....	1-15
1-15	Impervious Cover Addressed by Advanced Stormwater Management Facilities.....	1-16
2-1	Number of Grading Permits and Acreage of Disturbance by Watershed for 2006.....	2-3
2-2	Number of Building Permits by Watershed Approved in 2006.....	2-5
2-3	Number of Grading and Building Permits by Year.....	2-7
2-4	Sediment Control Inspection Data for 2006.....	
3-1	Removal Rates of Vac-Con Inlet and Pipe Cleaning by Year.....	3-3
3-2	2006 Material Removed in Cubic Yards by Watershed.....	3-6
3-3	Comparisons Between Mineart and Singh (1994) and Preliminary Results from the Street Sweeping Study.....	3-7
3-4	2006 Pollutant Removal (Pounds) by Watershed Attributed to the Vac-Con Program	3-7
3-5	Annual Street Sweeping Summary.....	3-8
3-6	2006 Street Sweeping Program – Tons Removed from Watersheds.....	3-10
3-7	2006 Street Sweeping Program Pollutant Removal (Pounds).....	3-10
3-8	Household Hazardous Waste Recycled (2002-2006).....	3-11
3-9	2006 County Agency Fertilizer, Pesticide, and Deicing Materials Used (#).....	3-15
3-10	Annual Fertilizer, Pesticide and Deicing Materials Used By County Agencies (in Pounds).....	3-15

4-1	School and Community Environmental Education Projects Implemented by Green Schools Located in Baltimore County.....	4-10
4-2	Education Events Conducted for Residents of the County and Region by Watershed Audience, 2006.....	4-21
4-3	Education Events by Type of Audience*, 2006.....	4-22
4-4	<i>Maryland Green Schools</i> by Jurisdiction 1999 - 2006.....	4-24
4-5	Presentations, Participants, and Materials, 1994 - 2006.....	4-29
5-1	Outfalls by Watershed and Priority Classification.....	5-3
5-2	Complaints Processed from January 1, 2006 through December 31, 2006..	5-7
7-1	Status of Watershed Management Plans.....	7-3
7-2	Watershed Management Plans Consultants and Costs.....	7-4
7-3	Prettyboy Reservoir Watershed – CIP Status.....	7-6
7-4	Loch Raven Reservoir Watershed – CIP Status.....	7-8
7-5	Lower Gunpowder Falls Watershed – CIP Status	7-10
7-6	Little Gunpowder Falls Watershed – CIP Status	7-11
7-7	Bird River Watershed – CIP Status.....	7-12
7-8	Gunpowder River Watershed – CIP Status.....	7-13
7-9	Middle River Watershed – CIP Status.....	7-14
7-10	Patapsco River Watershed – CIP Status.....	7-16
7-11	Gwynns Falls Watershed – CIP Status.....	7-17
7-12	Jones Falls Watershed – CIP Status.....	7-18
7-13	Back River Watershed – CIP Status.....	7-21
7-14	Baltimore Harbor Watershed – CIP Status.....	7-22
7-15	Baltimore County Impervious Area by Watershed.....	7-24
7-16	Baltimore County and Maryland State Highway Impervious Acreage.....	7-25
7-17	Impervious Acreage Addressed by Completed Capital Improvements Projects.....	7-26
7-18	Impervious Cover Addressed by the Current SWAPs.....	7-26

8-1	Scotts Level Branch, Powder Mill Run, and Upper Gwynns Falls Information.....	8-5
8-2	USGS Gage Information.....	8-5
8-3	Precipitation Analysis for Calendar 2006.....	8-9
8-4	2006 Precipitation Amount, Intensity, and Duration by Category.....	8-10
8-5	Seasonal Precipitation and Runoff Characteristics.....	8-11
8-6	Regression Equations Relationship Between Discharge (CFS) and Pollutant Concentrations.....	8-12
8-7	Daily Baseflow Pollutant Loads for Scotts Level Branch Sites.....	8-19
8-8	Pollutant Load Characteristics for Calendar Year 2006.....	8-20
8-9	Scotts Level Branch Cross Sections – Cut and Fill Amounts.....	8-23
8-10	Scotts Level Branch Cross Sections (WERF Cross Sections) – Cut and Fill Amounts.....	8-24
8-11	Scotts Level Branch Stream Channel Changes Over Time.....	8-24
8-12	Powder Mill Run Cross Sections – Cut and Fill Amounts.....	8-25
8-13	Powder Mill Run Stream Channel Changes Over Time.....	8-26
8-14	Scotts Level Branch and Powder Mill Run IBI Scores.....	8-26
8-15	Windlass Run Cross Sections – Cut and Fill Amounts.....	8-31
8-16	Windlass Run Stream Channel Changes Over Time.....	8-32
8-17	Windlass Run BIBI Scores.....	8-33
9-1	Baseflow Pollutant ANOVA and Duncan’s Multiple Range Test Results...	9-5
9-2	Site Codes and the Associated Tidal Water body.....	9-12
9-3	ANOVA and Duncan’s Multiple Range Test Results.....	9-12
9-4	Summary of Capital Improvements Projects Monitoring Reports Submitted for 2006 & 2007 (mid year).....	9-17
9-5	BIBI Metrics.....	9-19
9-6	BIBI Score Distribution by Watershed (% by Category).....	9-22
9-7	Means and Standard Deviations of BIBI Scores by Watershed.....	9-22
9-8	Watershed Biological Condition.....	9-24
9-9	Stream Restoration Biological Monitoring Site Locations.....	9-26
9-10	BIBI and FIBI Scores for WoodValley Stations.....	9-29
9-11	Reference Site Locations.....	9-29
9-12	SAV Standards and Baltimore County SAV Monitoring Results (2004-2006).....	9-31
10-1	Status of TMDL’s and TMDL Reduction Requirements for Urban Stormwater.....	10-1
10-2	Pollutant Removal (Pounds) by Upper Western Shore Watersheds	
10-3	Attributed to BMP’s.....	10-2
	Pollutant Removal (Pounds) by Patapsco/Back River Watersheds	
	Attributed to BMP’s.....	10-4

11-1	Major NPDES Program Tasks and Responsible Baltimore County Agencies.....	11-2
11-2	NPDES Operating Budget.....	11-3
11-3	Capital Program.....	11-3
11-4	Baltimore County Environmental Capital Improvement Program- Fiscal Year 2007.....	11-4
11-5	Baltimore County Environmental Capital Improvement Program- Fiscal Years 2008 & 2009.....	11-4
11-6	Baltimore County Environmental Capital Improvement Program- Fiscal Years 2010& 2011.....	11-5
11-7	Baltimore County Environmental Capital Improvement Program- Fiscal Year 2012.....	11-5

List of Figures

1-1	Number of Approved SWM Facilities by Watershed— Through the Calendar Year 2006.....	1-6
1-2	Acreage Served by Approved Private SWM Facilities by Watershed Through the Calendar Year 2006.....	1-7
1-3	Acreage Served by Approved Public SWM Facilities by Watershed Through the Calendar Year 2006.....	1-7
2-1	Acres of disturbance through approved grading permits by watershed for 2006.....	2-3
2-2	Number of building permits issued in 2006 by watershed.....	2-4
2-3	Approved Grading and Building Permits for the Period 1998 – 2006.....	2-5
2-4	The number of sediment control enforcement actions by month for the calendar year 2006.....	2-6
2-5	Number of sediment control inspections and the total number of inspections by month for the calendar year 2006.....	2-6
3-1	Vac-Con Summary Report for Inlets.....	3-3
3-2	Vac-Con Annual Inlet Debris Removal Rates.....	3-4
3-3	Vac-Con Summary Report for Pipes.....	3-4
3-4	Vac-Con Annual Pipe Debris Removal Rates.....	3-5
3-5	Miles of Street Swept, Tons of Material Removed and Tons/Miles Swept	3-9
3-6	Household Hazardous Wastes Recycling of Flammables, Gasoline, and Pesticides.....	3-13
3-7	Waste Oil and Anti-freeze Recycled from 1991 through 2006.....	3-14

4-1	DEPRM staff members volunteered time for maintenance of DEPRM's demonstration BayScape garden.....	4-6
4-2	Baltimore County Executive James T. Smith, Rebecca Bell (MSDE), and David O'Neill (CBT) join John Sandkuhler of the Forbush School at Sheppard Pratt in Towson.....	4-9
4-3	Representatives from Hereford Middle School were Awarded <i>Green School</i> Recognition at the National Aquarium in Baltimore City, April 2002.....	4-12
4-4	Number of Trees Obtained Through the Tree-Mendous Maryland Program With Assistance from DEPRM, 1990 – 2006.....	4-39
5-1	Outfall Prioritization.....	5-4
5-2	Outfall Screening Priority Distribution.....	5-5
5-3	Number of <i>quantitative</i> problems detected.....	5-6
5-4	Number of <i>qualitative</i> problems visually observed.....	5-6
5-5	Involvement of the Regional Programs in the Investigation of Illicit Connections.....	5-13
8-1	Subwatersheds to be Used in the Paired Watershed Monitoring Design.....	8-4
8-2	Scotts Level Branch Chemical Monitoring Locations.....	8-6
8-3	Scotts Level Branch Geomorphological and Biological Monitoring Site Locations.....	8-8
8-4	Powder Mill Run Geomorphological and Biological Monitoring Sites.....	8-8
8-5	Calendar Year 2006 Daily Precipitation and Discharge.....	8-11
8-6	Total Suspended Solids (TSS) Data and Regressions for 2005-2007.....	8-13
8-7	Total Kjeldahl Nitrogen (TKN) Data and Regressions for 2005-2007.....	8-13
8-8	Nitrate/Nitrite (NO ₂ /NO ₃) Data and Regressions for 2005-2007.....	8-14
8-9	Total Nitrogen (TN) Data and Regressions for 2005-2007.....	8-14
8-10	Total Phosphorus (TP) Data and Regressions for 2005-2007.....	8-15
8-11	Event Mean Concentration for Total Suspended Solids (TSS).....	8-16
8-12	Event Mean Concentration for Total Kjeldahl Nitrogen (TKN).....	8-16
8-13	Event Meant Concentration for Nitrate/Nitrite (NO ₂ /NO ₃).....	8-17
8-14	Event Mean Concentration for Total Nitrogen (TN).....	8-17
8-15	Event Mean concentration for Total Phosphorus (TP).....	8-18
8-16	Scotts Level Branch Geomorphological Cross Section 1 Overlay showing net deposition especially on the channel sides between the 2006 and 2007 surveys.....	8-22
8-17	Windlass Run Aerial Photograph Showing Monitoring Station Locations.....	8-29
8-18	Windlass Run Physical Habitat Scores.....	8-33

9-1	Patapsco/Back River Basin – Baseflow Monitoring Sites.....	9-3
9-2	Gunpowder Basin/Deer Creek – Baseflow Monitoring Sites.....	9-4
9-3	Frequency distributions by concentration for Total Copper and Dissolved Copper for the 2006 Gunpowder/Deer Creek samples.....	9-5
9-4	Duncan’s Multiple Range Test results for TKN, Total Phosphorus, Dissolved Copper, and Chlorides.....	9-7
9-5	Baseflow Total Phosphorus and Total Nitrogen Results for sampling years 2004 and 2006.....	9-7
9-6	Baseflow Total Nitrogen mean concentrations for monitoring years 2005 (Patapsco/Back River Basin) and 2006 (Gunpowder Basin).....	9-9
9-7	Baseflow Total Phosphorus mean concentrations for monitoring years 2005 (Patapsco/Back River Basin) and 2006 (Gunpowder Basin).....	9-10
9-8	Tidal Waters Monitoring Site Locations.....	9-11
9-9	Pollutant Between Year Variation by Site.....	9-14
9-10	Probabilistic Biological Monitoring results for 2003 and 2004.....	9-20
9-11	Probabilistic Biological Monitoring results for 2005 and 2006.....	9-21
9-12	Sentinel Site Locations and Biological Condition for 2003, 2004, and 2006.....	9-25
9-13	Minebank Run biological monitoring stations.....	9-27
9-14	BIBI Scores by Year.....	9-28
9-15	FIBI Scores by Year.....	9-28

List of Exhibits

4-1	Baltimore County’s <i>Green Schools</i> , 1999-2006.....	4-45
11-1	Department of Environmental Protection and Resource Management Table of Organization for FY2008.....	11-6
11-2	Department of Environmental Protection and Resource Management Staff Organizational Chart Effective June 15, 2007.....	11-8

List of Appendices

1-1	Public Stormwater Facility Maintenance by Type.....	1-17
2-1	List of Individuals Receiving Certification.....	2-8
4-1	Education Program Presentations and Events, 2004.....	4-46
8-1	Scotts Level Branch and Powder Mill Run Physical Habitat.....	8-34
9-1	Baseflow Monitoring Sites by Watershed.....	9-32
9-2	Baseflow Water Quality Data by Site.....	9-34
9-3	Tidal Waters Chemical Monitoring Results.....	9-48
9-4	Results of 2006 Probabilistic Monitoring.....	9-50
