

DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY

Interoffice Memo

TO: Michael J. Mazurek, P.E. Chief
Water Design Section
Department of Public Works

FROM: Vincent J. Gardina, Director /signed/
Department of Environmental Protection and Sustainability

DATE: November 17, 2015

SUBJECT: CARNEGIE 6 INCH WATER MAIN REPLACEMENT
Stormwater Management Variance
Baltimore Harbor Watershed
EPS Project ID: M150300
Tracking Number: 07-15-2109

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the replacement of a 6 inch water main by cut and cover. The existing cover conditions will be re-established once the water main is installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
