RE: FALLS FIFTH PUMPING STATION SANITARY DISCHARGE
Stormwater Management Variance
Loch Raven Watershed
EPS Project I.D. M150343
EPS Tracking Number: 03-15-2126

Dear Mr. Walker:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of this article.

This project is for the construction of a sanitary line by cut and cover. The existing cover conditions will be reestablished once the line is installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in the rate or volume of runoff as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.

Very truly yours,

/signed/
