Back River Watershed
EPS Project ID: M150264
Tracking Numbers: 05-16-2195 06-16-2196

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the restoration of a stream. The existing cover conditions will be re-established once the restoration is complete. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.
