RE: LOCH RAVEN WATERSHED CULVERT REPAIRS
(LR-2, 8, 11 & 12)
Stormwater Management Variance
Loch Raven Watershed
EPS Project I.D. M150195
EPS Tracking Number: 03-16-2155

Dear Mr. Ahmed:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of this article.

This project is for the repair/replacement of 4 stream culverts. The existing cover conditions will be reestablished once the work is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in the rate or volume of runoff as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.

Very truly yours,

/signed/
