

DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY

Interoffice Memo

TO: Glen A. Keller, P.E., Chief
Bureau of Engineering and Construction, Sewer Design Section
Department of Public Works

FROM: Vincent J. Gardina, Director /signed/
Department of Environmental Protection and Sustainability

DATE: April 15, 2016

SUBJECT: LOWER POWDER MILL SEWER REHABILITATION
Stormwater Management Variance
Gwynns Falls Watershed
EPS Project ID: M150340
Tracking Number: 04-16-2203

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the rehabilitation of a sewer line by trenchless lining. The existing cover conditions will be re-established once the rehabilitation is complete. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
