RE: RESH MILL PRESERVE
Stormwater Management Variance
Prettyboy Watershed
EPS Project I.D. M150173
EPS Tracking Number: 03-16-2231

Dear Mr. Carroll:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the replacement of a culvert. The existing cover conditions will be re-established once culvert is replaced. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.

Very truly yours,

/signed/

Vincent J. Gardina, Director
Department of Environmental Protection
& Sustainability
