

DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY

Interoffice Memo

TO: Stephen Emm, Project Manager
Bureau of Engineering & Construction, Water Design Section

FROM: Vincent J. Gardina /signed/
Director, EPS

DATE: September 1, 2015

SUBJECT: SUDBROOK PARK AREA 8" & 12" WATER MAIN REPLACEMENT
Stormwater Management Variance
Gwynns Falls Watershed
EPS Project ID: M150212
Tracking Number: 04-15-2047

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for an 8" and 12" water main replacement. The existing cover conditions will be re-established once the project is completed. There will be no change in impervious areas as a result of this project so the rate and volume of runoff will not increase.

Please contact Robert T. Wood, Jr. of my staff at 410-887-3768 should you have any questions.
