Capital Program and Operations

FROM: Thomas L. Vidmar, Deputy Director */signed/*

SUBJECT: Magnolia Storm Water Management Retrofit Project
Storm Water Management Variance
Project ID: M130062
Tracking #: 05-13-1663
Bird River Watershed

This office has reviewed the information submitted and finds that a storm water management variance can be granted for this project under Section 33-4-113 (a) (2) Title 4 of the Baltimore County Code. Section 33-4-113 (a) (2) allows a storm water management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this section would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations. This project is to retrofit the outfalls for two storm drains through the use of step pool storm conveyance. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Lamar A. Williams at 410-887-3768 should you have any questions.
