

# \$ ATTENTION \$ YOUR ARE RESPONSIBLE

BALTIMORE COUNTY, MARYLAND  
Department of Permits, Approvals & Inspections

TO: Contractor/Plumber

FROM: Division of Permits and Licenses

RE: Grinder Pump

You have applied for and received a permit to connect a Baltimore County Property to the Baltimore County public sanitary sewer system. According to our records, this property will enter the Baltimore County system via a grinder pump. At this time there is **NO GRINDER PUMP IN THE TANK** to which you will connect. Before starting any work, it is your responsibility to notify Jim Pilson of Construction Inspections at 410-887-3531 72 hours before starting work. A site visit by Baltimore County Personnel and the Plumber will be required before the plumber will be allowed to start any work. If the requirements stated above are not met and the plumber starts work before the site visit, the **PLUMBER WILL BE RESPONSIBLE** for any and all damage to the can and wires, and will be required to clean-out any water, rock, or dirt in the can. After the site visit and approval, your site work may begin and you should contact the Supplier to coordinate the grinder pump installation. If any damage is found between the site visit inspection and the grinder pump installation **YOU WILL BE HELD RESPONSIBLE.**
