

## Electrical Licenses:

No person shall install, repair, maintain or erect any kind of **electrical** wiring, conduits, machinery, appliances, motors, fixtures, signs, radios, television and electronic equipment, electrically operate heating equipment, elevators, or any other electrically operated apparatus or device in or about any premises in the county without having obtained a license as required by this article or without having complied with this article, except:

- (1) Utility companies regulated by the state public service commission;
- (2) Persons making minor repairs and replacements to existing wiring or equipment in their own home;
- (3) Radio and electronic experimenters and amateurs where no change in existing wiring is necessary, unless changes are authorized by the **electrical** administrative board of the county, and in each case the applicant must file an application with the department of permits and licenses for a permit and inspections;
- (4) Employees of the United States government, when engaged in performance of their official duties only;
- (5) Persons working under the supervision of a master general electrician or under the supervision of a specified representative of a person, firm, or corporation holding a master limited electricians license.

### **Master General License**

Authorizes the holder thereof to install, repair, maintain or erect any kind of electrical wiring, conduits, machinery, appliances, motors, fixtures, signs, electrically operated heating equipment, elevators, or any other electrical apparatus or device in or about any premises in Baltimore County.

### **Limited License**

**(Limits license holder to represent and perform work in one industrial type building in Baltimore County)**

Authorizes the holder thereof to install, repair, maintain or erect any kind of electrical wiring, conduits, machinery, appliances, motors, fixtures, signs, electrically operated heating equipment, elevators, or any other electrical apparatus or device, **but only on the premises of his employer in Baltimore County (no work for the public at all)**.

### **Restricted License (Separate Examinations given for Specialties Listed Below)**

Authorizes the holder thereof to install, maintain, and repair low voltage equipment and wiring operating at 50 volts or less.
