2. Resolution 73-19 Planning Board – Conversion of Commercial Space-Condominium/Apt. style buildings

Mr. Fraker gave a brief reintroducton of the resolution and staff report. No citizens signed up to speak at the hearing. The Chair then opened the floor for questions by the Board for Mr. Fraker.
Mr. Heckman brought up Staff’s recommendation in its report “that future mixed-use structures limit the residential component to floors above the street level”, and asked if staff was recommending conversion on ground level only be allowed for existing buildings and not future ones. Mr. Moxley responded by saying that future mixed-use developments should not be constructed with the intent to have residential units on the ground floor, but rather should be commercial until it is proven that retaining a retail use on the ground floor is unfeasible.

Mr. Holupka asked if a residential building was proposed in the urban area of the county would a ground floor residential use be allowed. Mr. Moxley responded that it would only apply to mixed-use structures.

Chairman Phillips confirmed that staff is not recommending the conversion of ground floor space be limited to dormitory use.

Mr. Hartman asked if the staff considered condominiums to be different in terms of impact on residents as they own a stake in the property. In response Mr. Moxley stated that in the broader sense of staff’s research ownership is not a primary consideration and that properties are owned, whether they are condominiums or apartments.

Mr. Warren inquired whether the conversion prevents the developer or owner from going back to commercial from residential after a conversion. Mr. Moxley answered that staff’s report has no recommendation to prohibit that and in researching the topic, other jurisdictions have encouraged the conversion back to commercial.

Mr. Schweitzer asked if the report considered the possibility of residential and commercial spaces coinciding with one another on the ground floor of a mixed-use building. Mr. Moxley replied that it was encountered in staff’s research and that the residential component is usually camouflaged to appear as commercial. In staff’s recommendations it was stated that the ground floor levels maintain an urban appearance compatible with the rest of the street across all uses.

Mrs. Hafford stated that in order for the commercial on the ground floors of the Downtown Towson district to remain viable more residents need to be in the area.

**Adjournment of the Public Hearing**

Chairman Phillips called for an adjournment of the Public Hearing at 5:11 p.m. and simultaneously reconvened the Board Meeting.

**Meeting of the Baltimore County Planning Board**

**Items for Discussion and Possible Vote**

Mr. Heinl asked what is required of a landowner of a mixed-use property to demonstrate sufficiently a retail use on the ground floor is untenable. Mr. Moxley responded that in the report staff recommends a minimum of six month time period where the landowner has diligently pursued retail tenants to occupy the space.
Chairman Phillips entertained a motion to for the Planning Board to adopt staff’s Report to the Board on Council Resolution 73-19 – “Conversion of Commercial Space-Condominium/Apt. style buildings” dated September 19, 2019, and recommend it be forwarded to the Baltimore County Council. Ms. Hafford made the motion, it was seconded by Ms. Pinheiro, and was passed unanimously at 5:14 p.m. absent for the vote were Ms. Berzins and Mr. Perlow.
