Ms. Allysha Lorber stated that the committee should prioritize projects and make recommendations to the new administration. Ms. Lorber stated that she would start a google document list and would circulate it among the members. She suggested the following be taken into account when looking at potential projects and for prioritization of those projects:

1. Cost
2. Connections
3. Population
4. Gaps in the existing network
5. Public Support
6. Right-of-way ownership
7. Other safety improvements

Mr. Evans concurred with Ms. Lorber on her proposal and suggested that making a google map showing the projects might be helpful. He also mentioned the NCR trail connection and that a feasibility study should be conducted. Mr. Evans also stated that he would like to review the Baltimore Public Schools (BCPS) transportation policy.

Mr. Taylor wanted to know who is responsible for ensuring that sidewalks get built when a new development is being built.

Mr. Charlie Murphy inquired as to who the new representative for Bike to Work Day was going to be for Baltimore County this coming year.
