

BALTIMORE COUNTY MARYLAND

INTER-OFFICE CORRESPONDENCE

DATE: January 19, 2016

TO: Edward C. Adams, Jr., Director
Department of Public Works

FROM: Steven A. Walsh, Chief 
Bureau of Engineering & Construction

SUBJECT: 2016 Basic Services Maps
Public Water and Sewer Status

In accordance with your request, we are furnishing an update for the 2016 Basic Services Map.

Water

No deficiencies are known to exist.

Sewer

Sanitary Sewer Overflow (SSO) #103 (Montbel Avenue) has been monitored and has been closed. The area of concern upstream of SSO #103 has been removed from the Basic Services Map.

All of the remaining sewer relief point locations are being metered. We have completed several rehabilitation projects and are now performing post-monitoring to determine the projects' effectiveness. In addition, we have projects still in construction and in design which will eventually eliminate the areas of concern.

Everyone should be aware that the removal of an area of special concern does not mean that an area has unlimited development potential. All developments are evaluated hydraulically on a case-by-case basis, and determinations are made to see if the development will need downstream supplementation.
