

Materials Matching Game

Print out both Matching Game activity pages and cut out the individual images on page two. Think about what could be done with each item once it becomes used, and place them in the proper category of the chart below. There should be four items to a column, so try to pick the best choice for each image, even if it could fit into more than one category.

RECYCLE	REUSE	COMPOST

Materials Matching Game

Use the images below to complete the chart on page one.
