

# Preparing for Tomorrow's Interview Today

Times are tough and the competition for good jobs is harder than ever before. You need every advantage to get the job you want -- and the key to getting hired is a **SUCCESSFUL INTERVIEW**. The Baltimore County American Job Centers have a tool to help you prepare for your next job interview.

*Perfect Interview*™ is an exciting online tool you can use to practice and develop your interviewing skills. A webcam records your answers, so you can see exactly how you will look and sound during an interview! This web-based tool enhances your job interviewing skills and helps to develop your confidence. *Perfect Interview*™ accomplishes this by creating a compelling and realistic “simulated interview” experience where you are asked challenging questions just as you would in a real job interview.

You tell *Perfect Interview*™ what kind of job interview you want to practice and how long you want it to be. A professional interviewer appears on the computer screen and asks the questions. You must respond, just as you would in a real interview. You can repeat each question as often as you like, and you can even see examples of how someone else might answer. And, if you get stuck, there’s a built-in Interview Coach to offer help.

You may be very experienced in your field, but, like many job-seekers, you probably do not have a lot of experience with the interview process itself. When you use *Perfect Interview*™, you will learn how to present your skills and qualifications in the best possible light. And that will give you a key advantage over your competition.

You know how important it is to be prepared as you return to the job market. And, one of the most important aspects of that preparation is job interviewing. With over 1,800 interview questions, answers, and tutorials to choose from, you can be confident that you are prepared to deal with any interview scenario.
